RE: R.K. Miles Lumber Yard, Manchester

Dear Jim:

Thank you for water quality results generated from the December water sampling at R.K. Miles in Manchester. I am pleased to observe a general decrease in contaminant levels and I am in concurrence to continue the sampling program twice a year (June and December 1987).

Should levels by the end of 1987 be comperable to the most recent results, we will consider the site closed.

Sincerely,

John F. Amadon, Soil Scientist
Waste Management Division
